Sapporo Storage

Deneb Collection

Atlas Storage

Sapporo is a refined and versatile storage system. It can be used as an individual element, or can be stacked up to six units high. The basic structure is made from white laminate, supported by a clear anodised aluminium base on castors or feet. The sliding doors of the Sapporo are available in reversible oak/ walnut; tempered glass with a transparent or frosted finish; or a choice of coloured Plexiglas.

The attractive Deneb collection offers the perfect solution for a home office environment. Featuring Deneb's classic aluminium frame, the top is available in frosted or transparent glass. Available in a variety of sizes, a coffee table is also available.

Atlas is a range of storage units, suitable for a variety of uses in either home or office environments. Available in a number of versions – from one to four drawers in different sizes – the elegantly designed Atlas collection is made from anodised aluminium. Atlas drawers are fitted with a unique anti-dust gliding system for easy opening and closing.

Warranty

4 year structural warranty

Lead time

12 weeks

Maintenance

Refer to Stylecraft care + maintenance guide
