# Lunar Collection

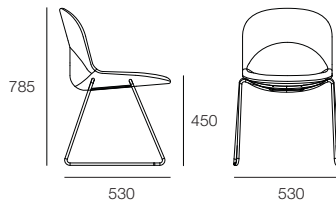

by Marcel Sigel

The Lunar chair by Go Home is a flexible and versatile seating solution designed for commercial, hospitality and residential environments.

With a clean, relaxed aesthetic, the chair features soft curvaceous lines produced through injected 3D foam technology. This unique production method allows for greater contouring of form, resulting in a flowing organic shape with superior comfort and individuality in design.

The chair's defining feature is the arcing lumber scoop, an ergonomic detail providing both comfort and character. The shell is upholstered in Mainline Flax fabric in 4 colours as standard or fabric or leather to clients specification. (note, vinyl upholstery is not suitable for this chair).

Frame options include a mild steel sled base in black or white powdercoat, 4 way castor base in black or white powdercoat and a 4 leg timber base in solid Oak to natural or black stain.

**Lead time**  
6 weeks

**Warranty**  
5 year structural warranty

**Maintenance**  
Refer to Stylecraft care  
+ maintenance guide
