Maintenance

Please refer to the Stylecraft Care & Maintenance Guide on product listing

The Catifa 46 technical sled armchair is able to be considered for a variety of commercial environments. Featuring a polypropylene shell, in either single tone or two tone, a fully upholstered or front face upholstered model may also be considered. Upholstery must be selected from Arper's house range of fabric and leather. The mild steel frame is finished to bright chrome as standard or powdercoat finish is available upon request. Accessories available include writing tablet, stacking plate, linking device and chair trolley.
