7 years structural

Maintenance

Please refer to the Stylecraft Care & Maintenance Guide on product listing

The Stacy collection blends functionality with understated elegance.

Designed by Lievore Altherr, the chair can be trolley stacked up to 40 chairs for ease of transport in provisional seating environments such as universities, conference rooms, auditoriums or public spaces.

Available with or without armrests, Stacy features a polypropylene seat and backrest available in a solid tone or alternatively there is the ability to mix the finishes to create a two tone effect. Alternatively Stacy can be upholstered to the seat and/or backrest.

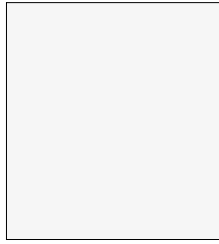

The mild steel sled base is available in polished chrome or a range of house powdercoat colours.

To enhance functionality, a range of accessories is available including a left or right hand side detachable writing tablet, linking system, row spacer, numbering system and stacking trolley.
