Maintenance

Please refer to the Stylecraft Care & Maintenance Guide on product listing

The George seating collection combines form and function across multiple environments, with the George 5 way castor base version suitable for visitor chairs and meeting rooms.

George features a fully upholstered shell with radius edge profile with options of plain or half horizontal line stitch detail. The George 5 way castor base features height adjustment and is available in a polished aluminium finish or selected house powdercoat colour.

Armrests are also available. Also suitable for meeting rooms is the fixed height 4 way castor model, with the complete George collection including a barstool, 4 leg and sled base chairs.
